

Chandrasekar K

Data Engineer | Microsoft Fabric | Azure | PySpark | SQL

chandruanalyst22@gmail.com | +91 87786 73371 | LinkedIn | GitHub | Chennai, India

SUMMARY

Entry-level **Data Engineer** with internship and project experience building data pipelines and integrations using **Python, SQL, Azure Data Factory, Microsoft Fabric, and PySpark**. Experienced in incremental processing, data-quality validation, lakehouse architecture, and dimensional modelling. Microsoft **DP-700** and **DP-900** certified.

TECHNICAL SKILLS

Programming: Python, SQL, PySpark

Big Data: Apache Spark, Delta Lake

Microsoft Fabric: OneLake, Lakehouse, Data Factory, Fabric Notebooks, Warehouse, Delta Tables

Azure: Azure Data Factory (ADF), ADLS Gen2, Azure Databricks, Azure SQL

Data Engineering: ETL/ELT, Medallion Architecture, Incremental Loading, Data Quality, Star Schema, SCD Type 1/2

Tools & Databases: Git, GitHub, Linux, PostgreSQL, MySQL

EXPERIENCE

Data Engineering Intern

Jan 2026 – May 2026

Donut Tech Private Limited,

- Built a **Microsoft Teams communication integration** using Python and Microsoft Graph API to process messages, tasks, and approval events and initiate automated notifications.
- Delivered email alerts through **Microsoft Graph API** and WhatsApp alerts through **WhatsApp Cloud API** for manager and employee follow-ups.
- Orchestrated **Azure Data Factory** pipelines to incrementally load approximately **50,000 records per month** into Azure SQL, applying field mapping, filtering, deduplication, and null handling.
- Prepared Teams communication data in **Azure SQL** for analysis of message activity, task assignments, approvals, response times, and related sender, recipient, and timestamp information.

PROJECTS

E-Commerce Lakehouse Data Platform

Fabric / PySpark / SQL / Delta Lake

- Built an end-to-end **Microsoft Fabric Lakehouse** using OneLake, Data Factory Pipelines, and Fabric Notebooks with Bronze, Silver, and Gold data layers.
- Developed PySpark and SQL transformations with **incremental ingestion, Delta MERGE, deduplication, schema validation, and data-quality checks**.
- Designed a **star schema** using FactSales, DimCustomer, DimProduct, and DimDate tables for downstream analytics and reporting.

Azure Retail Data Engineering Pipeline

ADF / ADLS Gen2 / Databricks / PySpark

- Built parameterized **Azure Data Factory** pipelines to ingest API, file, and relational data into ADLS Gen2 and transform datasets using Databricks and PySpark.
- Implemented **incremental loading, Delta Lake transformations, joins, window functions, deduplication, partitioning, and data validation**.
- Applied **SCD Type 2** processing to preserve historical changes in customer dimension data for analytical workloads.

CERTIFICATIONS

Microsoft Certified: Fabric Data Engineer Associate (DP-700)

Microsoft

Microsoft Certified: Azure Data Fundamentals (DP-900)

Microsoft

EDUCATION

Master of Computer Applications (MCA)

Jun 2024 – May 2026

SRM Valliammai Engineering College, Chennai

CGPA: 8.4/10

Bachelor of Computer Applications (BCA)

2021 – 2024

Apollo Arts & Science College, Chennai

CGPA: 8.0/10
